Специалисты компании POLYTECH провели 5. 05. 2014 г. методические занятия по освоению учебных лабораторий LHP303 «Строительный электромонтаж», «Электрические испытания жилого дома», «Электромонтаж систем кабельного отделения» и «Присоединения к нейтрале».

В освоении предложенного к эксплуатации в учебном процессе оборудования, принимал участие педагогический работник колледжа: Мастер производственного обучения - Бобровский В. В.

Цель проведенных занятий достигнута с оценкой «отлично», что подтвердилось доступностью изложенного материала, доброжелательностью общения, полным комплектом программного обеспечения.

Мастер производственного обучения, освоившие данную технику хотел бы продолжить сотрудничество с компанией POLYTECH с целью расширения учебной базы.
