Laboratory installation and training

Albanian Vocational Training Schools 2017

CUSTOMER:

Ministry of Social Welfare and Youth - Albania

SCHOOL:

ARBEN BROCI, SHKODRA
VOCATIONAL TRAINING SCHOOL

Albania, 27.11.2017

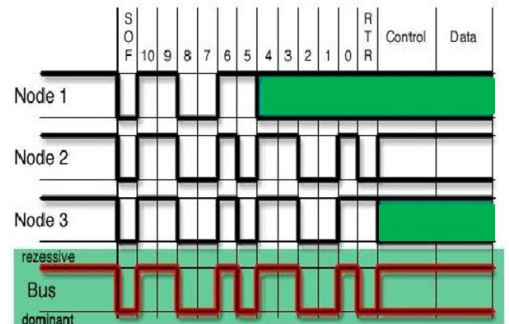

POLYTECH implemented a large scale project for "Supply of laboratory equipment for Vocational Education and Training schools" and provided 15 Vocational Education Schools with various laboratory equipment, trainers and simulators. The equipment were installed in schools in the territory of Tirana, Skodra, Elbasan, Berat, Korce, Durres, Fieri and Kamez.

Specifically in the city of Shkodra, at the *Arben Broci, Industrial High School*, the equipment that was installed is the below:

INSTALLED EQUIPMENT

CAN BUS FP311 Simulator

FP311 is the simulation unit of the FP300 series which introduces the students to the basics of the CAN-BUS architecture signal and measurement process in modern Autotronics.

We would like to thank the Albanian Government for selecting our equipment for the update of the Vocational Training Centers and our partners "Power Industries ltd " in Tirana for their cooperation.
